- VITEEE – 2019 Ranking: Equating is a statistical process that is used to adjust scores on test forms (that are approximately equivalent) so that scores on the forms can be used interchangeably. Thus, equating is used to adjust scores of candidates who have taken different forms of a test, in order to facilitate meaningful and fair comparison for merit list and ranking of these candidates. The statistical procedure of Equipercenile Equating would be used by VIT to identify the percentile ranks for candidates, such that scores on different forms with the same percentile rank are considered to be equivalent. Thus, Percentile Rank is a unique and invariant position of the test taker in that group. A percentile Rank, say 90 Percentile Rank denotes that there are 90 percent of test takers scores below this score level and 10 percent above this test score. Candidates are advised not to make assumptions and predictions of their score or rank based on their own estimates of raw scores.
- The entrance examination result (rank) will be available on www.vit.ac.in by the end of April 2019 (tentative date) and will also be intimated through SMS.
- A candidate may obtain counselling information on our website or by calling VIT office, after the declaration of VITEEE-2019 results.
- In the examination hall, biometric fingerprint / photo capture of each candidate will also be carried out by authorized personnel.

Note:

- All admissions are subject to discipline and conduct of the candidate
- The admissions are done in a transparent manner only on merit basis, based on the VITEEE rank. Please do not pay any money to Consultants/Brokers/Intermediaries. There is neither a MANAGEMENT QUOTA nor CAPITATION FEE at VIT. VIT does not accept Cash
- VITEEE is a common entrance exam for VIT Vellore, VIT Chennai, VIT-AP and VIT-Bhopal. Eligible candidates may select specific campus and course during counselling.
- What ever the timings mentioned in the e-admit card indicates the local timings only.
